How to Mobilize around MDGs

Session 1

Our wonderful, faithful Episcopal Church has a rather tepid history with "big initiatives" -- brilliant ideas to enhance our corporate life that enjoy a few months, maybe even a few years in the sun, then faded into obscurity. Where are they now? The Decade of Evangelism, Justice, Peace and Integrity of Creation, 20/20, Year of the Girl-Child...all needed, all well-conceived, all exciting, all mostly gone. The Millennium Development Goals movement currently enjoys top billing in the Episcopal Church. Designated top budget and program priority at General Convention 2006, people are preaching about them, holding conferences, writing books, and blogging. Still, the MDGs are vulnerable to the fate of initiatives-past. In July 2007 the MDG Task Force for the Diocese of Minnesota, with support from the Episcopal Church Foundation, made a choice to try something different -- to design a strategic plan which focuses all of our energies on mobilizing individuals in the pews around MDGs. Our goal is ambitious - mobilizing 70% of the diocese in 18 months. The plan includes 0.7% individual giving campaigns, measurable outcomes, public narratives, and collective decision-making. Come hear how we arrived at this strategy, how it's going, and what we're learning in the process. *The Rev. Devon Anderson, Diocese of Minnesota Minnesota MDG Task Force and Episcopal Church Foundation Transformational Ministry Fellow*

The Three-Legged Stool of MDGs: Relationship, Advocacy, Development

Session 2

We Episcopalians know all about three-legged stools. Our theological mantra of Scripture, Tradition and Reason lives deep in our collective DNA. On face-value, the Millennium Development Goals seem like eight clear and simple avenues for the eradication of global poverty. And yet, one need put one toe in the global mission arena to know that doing *effective* ministry work in any one of the eight paths is complicated and multi-layered. In September 2007, the Diocese of Minnesota held an MDG Training Summit, sponsored by the Episcopal Church Foundation. The goal was to explore in greater depth the relationship between three ingredients of effective global mission work: relationship, advocacy, and development. To be effective, sustainable, and mobilizing, global mission projects in congregations need to involve all three legs of this stool. This workshop will develop this idea and give specific examples of how individuals and congregations can engage them. *The Rev. Devon Anderson, Diocese of Minnesota, Chair, Minnesota MDG Task Force and Episcopal Church Foundation Transformational Ministry Fellow*

Leadership for New Wardens and Vestry

Session 2

What is being on the Vestry really about? It's not just making sure the "temporal affairs of the parish" are managed, but making sure that the Baptismal Covenant and its calling is at the heart of this leadership. This workshop will look at the gifts and tensions of Vestry leadership, and help to equip new wardens and vestry members for the unique spiritual leadership of vestry membership. *The Rev. Canon Alicia Schuster Weltner, Canon for Congregational Development, and the Rev. Canon Richard H. Callaway, Canon to the Ordinary*

She has completed Volunteer Management Training certification through the Points of Light Foundation and just recently completed a well received program on volunteers and volunteering at St. James, Marietta. *Kathryn Bruce, Community Volunteer Facilitator, Birmingham, Alabama*

What they didn't tell you when you were asked to run for the vestry

Session 3

Canon Callaway will present administrative vestry roles and responsibilities. Lots of time for discussion and critical incident sharing. Perhaps more Q than A, but we'll try! For starters: When is the Parochial Report due? Is our parish required to have an audit? Where can I get demographic data on my community? Is the Parish Secretary entitled to health benefits? Anti-racism training... for us? What's a Confirmed Communicant? Will the Architecture Commission actually help us? *The Rev. Canon Richard H. Callaway, Canon to the Ordinary*

Social Ministries

(The) Church and It's Money

Session 1

As people of faith we live in the tension between *marketplace* values—growth, increased profits and productivity, a competitive edge over others—and *gospel* values—fairness, forming community with the “least of these”, being good stewards. When we move from office or factory to pew, we do not move from one world to another—this tension follows us. The Church itself is faced with knotty questions over maximizing return from its assets in order to provide economic security to those who depend on it. Our economy is based on a *theology of scarcity*, stimulating our worries about whether there will be enough. At the same time our faith is rooted in a *theology of abundance* in which we believe that God created enough for the needs of all creation. It is in this tension that we enter this workshop. We will experience one module in the new curriculum (soon to be available) produced by the Episcopal Network for Economic Justice which addresses this topic. *Vicky Partin, Lay Missioner, Chattahoochee Valley Episcopal Ministry and John Hooper, Retired Director, Michigan Interfaith Loan Fund. Both members, ENEJ Education Team and Steering Committee, respectively*

Church of the Common Ground: Doing Church a Different Way

Session 3

Come hear first-hand about some new ways of "doing church". Church of the Common Ground, an exciting ministry in our diocese, is literally "taking it to the streets." Growing out of the remarkable work of Ecclesia Ministries in Boston, this way of doing church understands the fundamental truth that "the homeless" are our fellow journeyers with God, not the object of our charity. Join the Rev. Bob Book, Holly Book, Deacon Carole Maddux and others as they share their experiences and discuss the spiritual and pastoral needs of the homeless community, as well as the history of the Ecclesia community and the Church of the Common Ground in downtown Atlanta. Discover how you and your parish can create true relationship with the homeless community in a manner that opens minds and hearts to finding grace in new ways and new places. *The Rev. Bob Book, Holly Book, Deacon Carole Maddux*

Infusion Youth Leadership Program

Session 3

As outreach coordinators and parish educators, look around your committees and parish leadership to see who will be there to take your place. You may discover few leaders under 30 years of age. This workshop describes one program which engages 10th -12th grade youth in community through leadership, service, and spiritual reflection. Co-sponsored by the Pastoral Institute in Columbus, *Infusion* uses “servant leadership” as a model for teaching values and relationship building. In the year-long experience, 15 students explore social issues and the systemic causes of oppression while studying various religious texts. The goal is to develop culturally and spiritually aware youth who will become our future community and religious leaders. *Infusion* is decidedly Episcopalian but welcomes diversity in religions and cultures. *Kimberly Gaymon, Infusion Program Director and Counselor at the Pastoral Institute, Columbus.*

Military Ministry: Supporting U.S. Service Personnel and Their Families

Session 1

Know someone who's serving our country overseas? Have a parishioner who's returned and needing pastoral care? Is your parish willing to contact vets and provide creative outreach? How about if your family or congregation are grieving the loss of a loved one killed in action or one who's come back injured? Do you wonder how to “Support Our Troops” whether or not you support the war? Gather with others from around the diocese to discover resources available to care for the multi-faceted needs of those serving in the military. As we enter into the 5th year of current engagements in Iraq and Afghanistan, discover how parishes can mobilize to reach out to service members and their loved ones, especially for National Guard and Reserve forces who may not have access to base-specific support resources. Help us create a diocesan-wide network that can help such ministries grow.

The session will explore resources available through the Office of the Bishop for Chaplaincies, including the H.O.S.T. (Home Support Team) Program, an ecumenical and interfaith model for

providing much-needed support. Participants will learn how to create a plan for effective ministry and partnerships. Bring your own ideas, questions and experience – all of them will be valuable!
The Very Rev. Wesley Smith, Rector of Christ Church, Macon and former Army Chaplain.

Opening Eyes –Resources to Help Understand Race and Reconciliation Session 2

Get a taste of resources that may be new to you and your parish as you grapple with eradicating racism and work toward becoming more fully “the beloved community” of Dr. King’s dream. All of us are impacted by our histories, our cultures and our personal experiences; our own “blind spots” are easy to come by and harder to remove! Resources for helping each other open our eyes will include excerpts of the videos *A Girl Like Me*, *The Color of Fear* and *White Privilege 101*, along with many other materials which are also available for loan from the Diocesan Resource Center. Ideas for practical use in congregations and group settings will be discussed, including, we hope, many ideas from participants! Bring your stories, your questions, your hopes and your fears, as we offer them all for God’s grace and God’s healing. *John Ford, VP & Dean of Campus Life at Emory University, member of the Commission on Anti-racism and the Institute for Ministry & Theological Education Board, and parishioner at St. Bartholomew’s, Atlanta and Bill Nevins, Chair of the Commission on Anti-racism, diocesan and national trainer for Seeing the Face of God in Each Other, and parishioner at the Cathedral of St. Philip..*

We Are the Church Together: Stories of Inclusion, Food for the Journey Sessions 2 or 3

Churches are at their best when every member is welcomed, offered a seat at the table, invited to eat and be filled, and then asked to serve the one who would come behind them. People with disabilities have historically been missing from the table in many of our congregations and communities. This workshop, offered twice, will offer participants an opportunity to hear, tell, and respond to stories about the ways our congregations have begun the work of making this fellowship possible for people with disabilities. Facilitators will share their experiences with people with disabilities and mental illness. Workshop participants will also be invited to share stories and resources about their congregation’s experience welcoming people with disabilities. All storytellers and good listeners are welcome. *Mark Crenshaw, Director Interfaith Disabilities Connection, The Rev. Michael Tanner, Rector, Holy Comforter, The Rev. Benno Pattison, Rector, Epiphany, and The Rev. Beverley Elliott, Associate Rector, St. Bartholomew’s.*

In this very brief overview, we will see how the Enneagram, as we know it today, is a synthesis of ancient wisdom and modern psychology and how it is linked to early Christian tradition. We will get a glimpse of the nine personality types defined by the Enneagram but with a focus on the Enneagram’s deeper function as a pointer to who we are beyond the level of personality – towards a deeper dimension of ourselves that is infinitely more profound, more interesting, more rewarding and more real. *Lynda Roberts and Pisha Reardon, Specialists in the Insight Approach to the Enneagram*
